UNITED STATES CUTTING TOOL INSTITUTE
LEADING THE FUTURE OF THE CUTTING TOOL INDUSTRY

fall 14

Bacara Resort & Spa
Santa Barbara, California
October 11-13, 2014

2014 USCTI FALL MEETING SPONSORS

PRESIDENT'S WELCOME

Fellow Cutting Tool Professionals,

Welcome to Santa Barbara! Thank you for deciding to spend your valuable time with our Institute and we will deliver as promised. The cutting tool industry seems to be in a stagnant mode through the Summer so let's shake off the cobwebs and close the year with some strategies and ideas for strong growth. This meeting promises to continue our momentum as the voice of the metal cutting tool market.

In today's new business world, our curriculum will deliver with our most popular economic update with Bill Strauss of the Federal Reserve Bank in Chicago. Our featured presentations will cover workforce preparation as the industry turns to our nation's education system to inspire the next generation of associates working in the manufacturing sector. Roger Sustar has been a colleague in Northeast Ohio for many years; this is your opportunity to discover how your company can make a difference in educating the next generation's workforce in your region. This is a perfect segue to our Task Force in Manufacturing Careers.

Furthermore, Ian Stringer of AMT will tie our Statistics Program back to the MT Insight Program and how your company can utilize the Business Intelligence offered by the USCTI and AMT. If your company is hungry for market data, this is a must-see presentation.

And finally, our featured speaker, Ben Shapiro, promises to be a truly intuitive and thought provoking presenter. At 17, he was the youngest nationally syndicated columnist in the U.S. and carries that momentum forward to today where he is well-known for his brilliant commentary. We look forward to his ideas on the future of manufacturing in the USA.

Enjoy California before the Fall turns chilly!

All the best,
Tom Haag

PROGRAMS COMMITTEE CHAIR'S WELCOME

Welcome to the Fall 2014 USCTI meeting. We have a full schedule of events with a little something for everyone. We have four great speakers and many opportunities to network during our dinners and cocktail receptions. In addition, we have golf scheduled for Saturday and Monday and a spouses program that they won't want to miss. In keeping with our more recent tradition, we have a couple of optional excursions lined up for Sunday afternoon. Please enjoy this magnificent resort and all that Santa Barbara has to offer. Most of all, enjoy catching up with old friends and take the time to make some new friends along the way!!!

Cheers,
Mike Stokey
Program Committee Chair

MEETING SCHEDULE

3M™ Superabrasive Cup Wheels 11V9

Introducing
an advanced
new design –
for even better
performance!

We've made your "go-to" wheel even better!

- Lightweight machined aluminum core – improved balance and reduced run-out
- Outer core relief and composite inner support layer – easier OD and ID dressing
- Quick stocked wheel service – available in resin, polyimide and hybrid bond constructions. Stocked products qualify for 2-day order fulfillment.

For more information or to order, contact 3M Superabrasives Customer Service: 800-736-2500 superabrasives@mmm.com

www.3M.com/CuttingToolMfg

3M™ Superabrasive Cup Wheels 11V9 are among 3M's best "go-to" wheels for cutting tool and precision grinding applications. Now, these trusted wheels have been re-engineered to take you to the next level of precision and productivity.

3M Superabrasive Cup Wheels 11V9 now feature an improved solid aluminum cup design to help you achieve high tool quality with easy wheel maintenance. Plus, they are in stock for fast shipping – so you can get the wheel you need ... when you need it.

CARBIDE RECYCLING

Get cash or credit for your used carbide!

It's easy for your company to be environmentally conscious by using the Kennametal Carbide Recycling Program.

Kennametal accepts any coated or non-coated carbide items, including inserts, drills, reamers, taps, non-conforming powder and soft scrap.

Benefits of the Kennametal Carbide Recycling Program include:

- Systematic and proper disposal.
- More shop space.
- Improved profitability.
- Cash or credit towards future tool purchases.
- Full value from your metalcutting tools.
- The benefit of helping to preserve and protect the environment.

Example: Potential Annual Return*

10,000 lbs. of recycled carbide equals a return of \$120,000.

*Actual returns may vary based on current market value for carbide recycled materials.

HELPFUL HINTS

Welcome to the USCTI Fall Institute Meeting at the lovely Bacara Resort and Spa. Here are a couple helpful hints and suggestions about the area to make your stay more enjoyable.

- Please know that the beach at Bacara is a public beach, so you will be sharing the space with nearby residents.
- The beach has naturally occurring tar that seeps from the sand, it is recommended that you wear shoes while walking on the sand, or you will acquire some tar on the bottom of your feet. This is more evident on warmer days.
- Your resort fee includes a bottle of wine, water, in-room coffee served each morning upon request, wireless internet, and use of the spa and fitness facilities.
- There is a wine tasting room in the courtyard of Bacara, serving Foley Family wines. These wines include Kuleto Estate, Chalk Hill Estate, Sebastiani and Lancaster Estate and can be shipped to your home if you wish to purchase them. The tasting room is open 12pm-7pm, Sunday-Thursday and 12pm-8pm, Friday-Saturday.
- With the Santa Ynez Mountains nearby, there are multiple hikes to choose from. For an easy-going hike with a great view, check out Inspiration Point. If you're feeling adventurous, the 3 Pools Beyond 7 Falls hike is much more rigorous, but the pools at the end make it all worthwhile.
- There are nearly 30 different types of whales and dolphins that inhabit the Santa Barbara Channel during different parts of the year, making these waters some of the world's best for whale watching. Check with the Bacara concierge for more information on where and when to go.
- Santa Barbara is home to more than 125 wineries. If you choose to visit them, please see the concierge for maps or recommended tours and transportation.

Have a pleasant stay and please let a member of USCTI's staff know if we can make your stay more enjoyable!
